RE: Project Status Report, Lindsay Light II Site, 316 E. Illinois Street, Chicago, IL

Dear Ms. Simon:

This status report is provided in accordance with the requirements of Paragraph 14 of the Administrative Order by Consent (AOC), dated January 17, 1994. This status report, prepared on a monthly basis, covers activities during July, 1995. The report includes actions taken to comply with the Order and significant work items planned for next month, August, 1995. Submittal of this status report is required on a monthly basis subsequent to the approval of the Work Plan.

The response to agency comments and revised report dated July 26, 1995 were delivered to your offices on Friday, July 28, 1995. Submittal of this report satisfies the requirements of the Administration Order of Consent dated January 17, 1994. Mr. Richard Berggreen, the Project Coordinator is prepared to provide an affidavit in accordance with Paragraph 24 of the Order, certifying to the best of his knowledge that the information submitted is true, accurate and complete.

In accordance with Paragraph 25 of the Order, we are requesting written notice from U.S. Environmental Protection Agency that the terms of the Order have been completed. No further work is anticipated under the terms of this Consent Order following the submittal of the Project Coordinator affidavit.

We understand a meeting is being scheduled between the U.S. Environmental Protection Agency counsel and the attorney for the Chicago Dock and Canal Trust to discuss the Final Report submitted in July, and to set direction for how to proceed in the future. We anticipate the Project Coordinator, Richard Berggreen, and representatives for the Chicago Dock and Canal Trust will be present at that meeting.
